Jackson Items.

On Tuesday evening the body of John W. Fulbright, a farmer of Kinder township, was found on the Gus Reimann farm between Burfordville and Millerville. He had left home not long before and it is presumed that he had an epileptic attack, as he had been subject to them for a long time, so it is reported. Fulbright was about 40 years old and leaves a wife and two children; also his parents, three brothers and one sister. One of the brothers is the representative of Ripley county.

Joined in life for many years and joined in death, by natural causes, is the extraordinary case of Henry Happel and wife, a well known couple who had resided on Cape LaCroix creek, about a mile north of the gravel road, for many years. Friday night shortly after midnight Mrs. Happel died and five or six minutes later her husband, lying in an adjoining room, passed into eternity. . . . The age of Mr. Happel was 67 years, 9 months and 29 days, while his wife was 64 years, 10 months and 13 days old. Two sons and one daughter survive the parents; two sons died nearly twenty years ago within two days of each other, both from diphtheria, one a young man of 20, the other a boy of 14 years.

Olathe, Colorado.

I will send in a little bunch of items.

It is very cold in this part of the country, but everybody seems to stand it fine.

John Cooper has a very sick child now.

Miss Nell Whitener was visiting at James Fridy's one day last week.

Ed Whitener, who has been quite sick for a few days, is able to go to town now.

Quite a few of the young folks are enjoying themselves on the ice this winter for their sport.

James Fridy had quite a crowd Sunday: Enoch Underwood and family, Mr. Sneed and wife, Mrs. Coleman and baby and Marvin Fridy's.

Quite a few cases of fever in Olathe now. I hear the school has closed for fear it might become epidemic.

Mrs. Mollie Dolen is still giving her class of young folks lessons in elocution. I saw Bernice Yonge and Ina Fridy taking theirs Saturday. It is very interesting to watch them.

George Brown's had a very nice young people's society Friday night, and they report a nice time.

I see Witt Whitener has purchased him a tank of water.

Tom McKelvey's baby has just recovered from the fever.

James Fridy has purchased him a very fine team of horses recently. He says it's no harder for them to pull fourteen thousand pounds of coal than it is five or six thousand.

Steve Berry and family were visiting Tom McKelvey's Sunday.

J. C. Fridy and three sons and

Frank Cooper were out on business Monday at Fairview.

Say, what about the Missouri people? We hear out here that they are all wanting to sell out and come to Colorado, te, he! It's the place anyhow. (Must be some mistake about that. There are just plenty of people here who are not trying to sell out or get away from Missouri, which is mighty good evidence that they are satisfied here. Ed.)

As news is scarce and time is precious, I'll close.

Good luck to THE PRESS and all its readers.

WILD WEST IRE.

False Economy

They tell a story about a country lad who went to New York and tried for a job on the police force.

He passed the physical tests hands down, but the written examinations gave him a little trouble.

One of the questions was, "A man buys an article for \$12.25 and sells it for \$9.75; does he gain or lose on the transaction?"

After pondering over the question, our rural friend finally answered in this way: "He gains on the cents, but loses on the dollars."—Boston Advertiser.

### No. Six-Sixty-Six

This is a prescription prepared especially for **MALARIA or CHILLS & FEVER.** Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c
